

Mock Clinical Guideline

1 Introduction

This synthetic document exists only to test the annotation tool.
It contains headings, paragraphs, a figure, and deliberate annotation errors.
No real patient or clinical information is included.

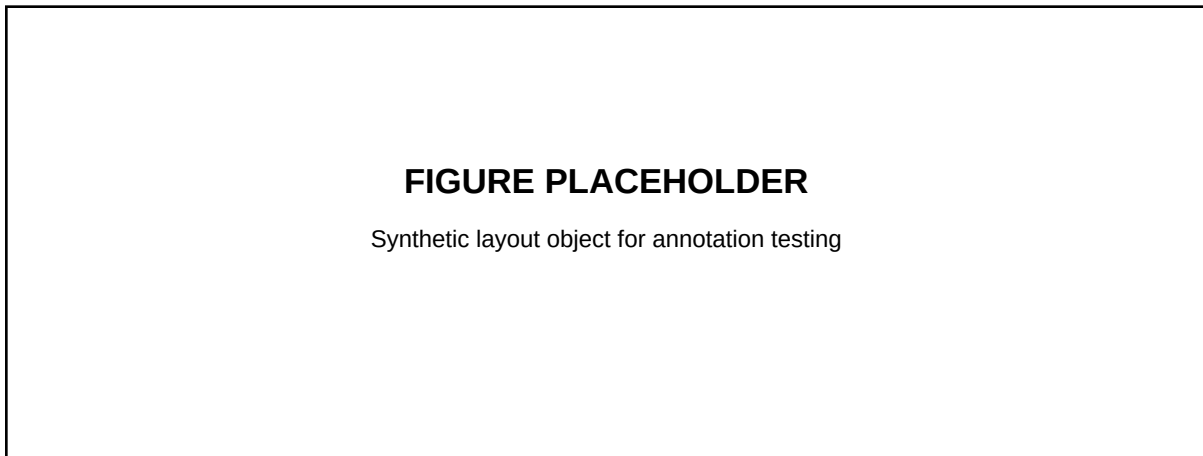

Figure 1. Example workflow diagram.

2 Safety

2.1 Renal impairment

For this mock example, the wording is intentionally generic.
The annotation JSON gives this subheading the wrong hierarchy level.
Correct the level during review.

Group	Action	Review
A	Standard	Routine
B	Reduce	Closer
C	Escalate	Specialist

Table 1. Synthetic decision table.

Safety note: verify all corrected regions before final approval.
